INTERNATIONAL CONFERENCE ON
BEYOND WORDS: ARTIFICIAL INTELLIGENCE'S TRANSFORMATIVE ROLE IN LINGUISTICS, LITERATURE & LEARNING

Date: 16th-18th May, 2025 | Venue: University of South Wales, Sydney, Australia

This conference aims to provide a comprehensive exploration of profound impact of Artificial Intelligence (AI) on language, literature, and learning through a multi-disciplinary perspective. The focus is exclusively on AI in specific domains like language education or literary creation. This conference integrates diverse areas including digital humanities, ethical considerations and cultural identity. The conference will feature keynote speeches, panel discussions and workshops led by scholars and industry experts offering both critical insights and functional strategies. Sessions will address topics such as: AI in Language Learning: Enhancing Educational tools and accessibility; AI in Literary Creation and Criticism: Examining AI s role as both a generator and an analytical tool; Ethics and Cultural Identity: Navigating AI s impact on societal values and cultural narratives; Digital Humanities: Merging traditional and computational approaches to enrich scholarship.

By balancing AI s practical applications with its philosophical and ethical dimensions, the conference seeks to foster meaningful dialogues and collaborations, making it a pioneering event for academicians, educators, creators, and policy makers alike.
